

SPECTO™ BOWLING

HAVE FUN, IMPROVE YOUR GAME

WORLD'S

Start a journey in Specto Worlds and improve your skills while you play!

PERFORMANCE

Everything you need for a hardcore practice and more.

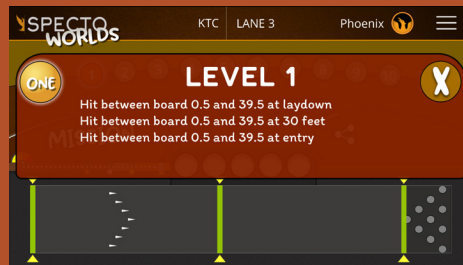

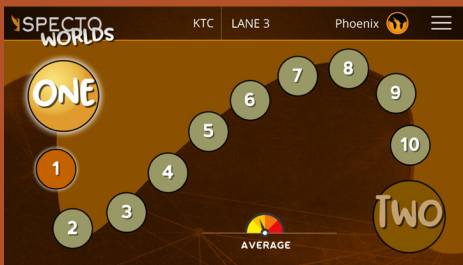

Challenges

This is the arena for you to prove your skills and talent. How good are you?

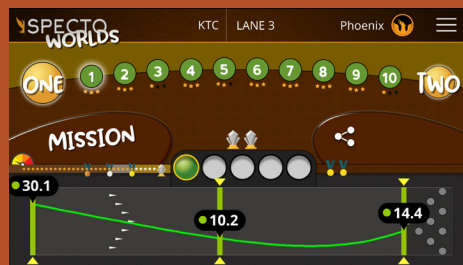

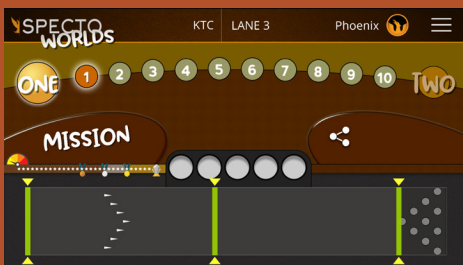

SPECTO WORLDS

Improve your skills while you play!

This is a game-like experience which helps bowlers develop their skills as they are guided through different levels. You begin by selecting a world and the difficulty level and the system will guide you through each game as you try to complete the world. Have fun trying to complete each task, achieve stars based on your performance, and enjoy practicing as you challenge your way through!

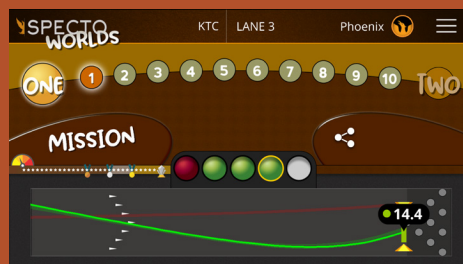

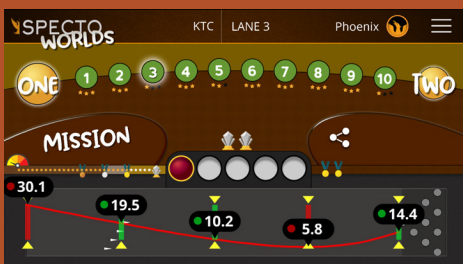

Specto Worlds travelers choose a difficulty level and tap the first world to start their journey.

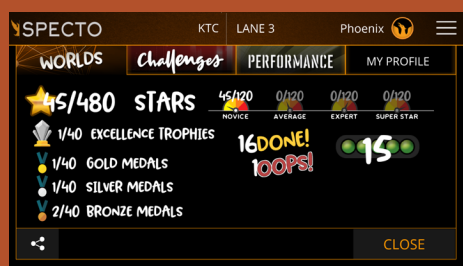

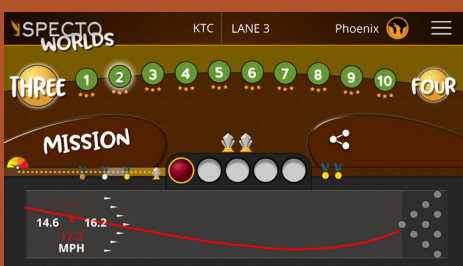

Each world has 10 levels with different missions. Bowlers have 5 shots to complete a mission. They earn stars based on their successful shots. The stars earn them medals and trophies.

They can replay each level to improve their scores.

All missions are designed to improve accuracy, consistency and repeatability.

Specto Worlds is designed to be used without a coach.

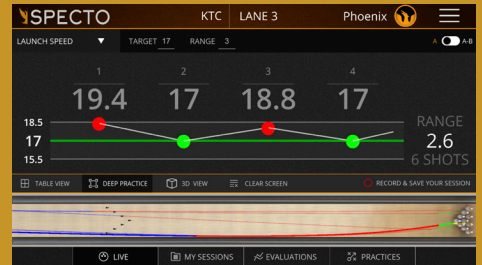

Specto Worlds: Start a journey, practice with a purpose.

SPECTO PERFORMANCE

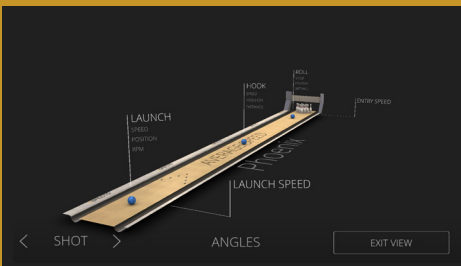

Here bowlers can find everything they need for a hard core practice. This is the area for bowlers and coaches to find detailed stats, measure performance in a variety of areas, and see their numbers in the same way they are shown in PBA matches. In the performance module bowlers can:

- See their ball reaction.
- Learn how accurate they are.
- Test their balls and prepare their arsenal for their next competition.
- Use practice drills designed by coaches to improve their game.
- Use deep practice to improve their skills quickly.
- And more!

	ARROWS	BREAKPOINT BOARD	BREAKPOINT DISTANCE	ENTRY BOARD	LAUNCH SPEED	RPM
