

Achieve a state of

UphoriaTM

with your lane conditions!

QUBICA AMF
SUPPLIES

Uphoria™

Uphoria was designed to give controlled overall ball motion that is clean through the front of the lane and predictable throughout the midlane. This ultra high viscosity lane conditioner has minimal carry down and is versatile enough for maximum performance on all synthetic lane surfaces.

FEATURES

Ultra Performance & Durability | Easy to Use | Predictable Midlane Ball Motion
Smooth Transitions | Minimal Carry Down | Ultra High Viscosity

UPHORIA™

For Wickless and Wick/Pad Lane Machines
(may require tank heating system)

Viscosity: 72.3 cps
